

AMP SYSTEMS

“Hear the ceremony,
not the generator”

SILENT, ECO-FRIENDLY, RELIABLE, MOBILE POWER

Don't let the noise, odor, and hassle of a portable generator spoil your wedding ceremony, reception, or outdoor event. Choose the silent, clean, and reliable AMP System to provide energy when utility power is not available. With power for lighting, DJs, bands, PA systems, and other electrical devices, the AMP System expands possibilities for venues without restrictions associated with other mobile power solutions. Make your event “green” and use the power of the sun and clean battery backup for your energy needs.
